## Conference: States' Extraterritorial Obligations Related to Economic, Social and Cultural Rights

*9<sup>th</sup> - 11<sup>th</sup> September 2009*

*Lancaster House Hotel, Lancaster University*

States' extraterritorial obligations (ETOs) are a major issue in international human rights law. This conference will present and analyse the work of the ETO Consortium, a collaborative project of civil society organisations and academic institutions. The project addresses conceptual and practical application of ETOs pertaining to economic, social and cultural human rights, with a view to developing authoritative principles on these matters in 2010. Conference participation will include civil society organisations, human rights experts from academia, representatives from the UN and others interested. The programme will feature speakers on ETOs in relationship to key themes in times of globalisation, including poverty, trade and development.
